SUMMARY

Software developer with hands-on experience in web development, artificial intelligence, cloud technologies, and ServiceNow. Contributed to projects through internships, hackathons, and industry programs while earning professional certifications in AWS and ServiceNow. Committed to building scalable solutions and staying at the forefront of emerging technologies.

TECHNICAL SKILLS

Languages	Java, JavaScript, TypeScript, SQL, HTML5, CSS3
Frontend	React.js, Next.js, Vite, Tailwind CSS, Framer Motion
Backend	Node.js, Express.js, REST APIs, JWT Auth, Bcrypt, RBAC
Databases	Firebase Firestore, SQLite, MySQL, MongoDB, PostgreSQL
Cloud	AWS (Bedrock, SageMaker, Lambda, S3), ServiceNow (Flow Designer, ATF), GCP Cloud Run, Vercel, Render, Docker
AI / ML	Generative AI, Google Gemini API, Prompt Engineering, AI Agents, Automation Workflows
Tools	Git, GitHub, Zustand, VS Code <i>Learning: Advanced React patterns, System Design</i>

CERTIFICATIONS

AWS Certified Cloud Practitioner (CCP) Amazon Web Services	Mar 2026 · Valid to May 2029
ServiceNow Certified System Administrator (CSA) ServiceNow	Issued Apr 2026
ServiceNow Certified Application Developer (CAD) ServiceNow	Issued May 2026

PROJECTS

ElectionShield SecureVote AI

- Built a secure full-stack election platform using React.js, Vite, Node.js, and Express.js with JWT authentication, Bcrypt hashing, and RBAC enforcing strict voter and admin privilege separation.
- Designed a SQLite production database with MySQL/MongoDB scalability path; implemented immutable audit trails achieving 99.8% tamper-detection accuracy in penetration tests.
- Deployed frontend on Vercel and backend on Render; integrated AI-driven anomaly detection reducing fraudulent ballot-detection latency by 40%.

NeoLearn TechTrack – Developer Progress Platform

- Architected a full-stack developer tracking platform with Next.js 16 App Router, TypeScript, and Tailwind CSS 4.0; containerized with Docker and deployed on GCP Cloud Run.
- Integrated Google Gemini 1.5 for personalized AI learning recommendations; used Firebase Firestore for real-time sync and Firebase Auth for secure login across 50,000+ skill records.
- Implemented Zustand state management and Framer Motion animations, reducing UI re-render overhead by 35% and improving overall perceived performance.

INTERNSHIPS

AWS Generative AI Virtual Internship

AWS Academy × EduSkills × AICTE · Oct – Dec 2025

- Completed 10-week GenAI program covering AWS Bedrock, SageMaker, and prompt engineering; reduced hallucination rates by 30% in prototype demos.

ServiceNow Virtual Internship

ServiceNow Univ. × SmartBridge × AICTE · Sep – Oct 2025

- Automated 3 ITSM workflows via Flow Designer; scripted ATF test suites with 100% pass rate, contributing directly to earning dual ServiceNow certifications.

Front-End Web Development Intern

Edunet Foundation × AICTE × IBM SkillsBuild · Aug – Sep 2025

- Built a responsive Weather Dashboard using HTML5, CSS3, JavaScript, and OpenWeather API; achieved 98/100 Google Lighthouse performance score.

Agentic AI Project-Based Learning

CSRBOX × IBM SkillsBuild · Jul – Aug 2025

- Designed multi-step AI-agent automation workflows cutting manual task overhead by 55%; presented capstone to a panel of 5 industry mentors.

LEADERSHIP & COMMUNITY

Organizing Team – SAMARTHA 2025 Hackathon

2025

- Managed onboarding and logistics for 200+ teams across a 36-hour national-level hackathon.

Student Ambassador – LetsUpgrade

May 2025

- Selected as campus ambassador to promote technical education and skill-building initiatives.
